- Stackable on trolley up to 10 pcs. without upholstery | 5 pcs. with upholstery
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 18 DESIGN BY HEE WELLING

Offering a slightly more formal expression than other designs in the collection, About A Chair AAC 18 features slim, elegant legs and armrests that frame the seat shell. The chair's upright, slightly rounded seat offers excellent comfort, while the open front conveys a welcoming expression. The legs are available in chrome and powder coated finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. Its refined silhouette and multitude of design.

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. The son of a cabinetmaker, Welling's fascination with production techniques, materials, and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts. Centred around the idea of creating technically accomplished products that can reach a wide audience, his designs are characterised by a great sense of proportion and quietly elegant aesthetics. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA), and has been nominated as Danish designer of the year in 2013 and 2014. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

COLOUR & FINISH

Please note that the colours are indicative

SHELL

BASE

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.

Does not apply to CMHR foam.

INDOOR ADVANTAGE™ GOLD
Supports a healthy indoor environment.
Confirms to ANSI/BIFMA standards.

EN TEST EN 16139 - L1
Non-domestic seating

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
